## DETAILED ACTION

### NOTICE TO APPLICANT TO PROVIDE PROPER REFERENCES TO THE CURRENT APPLICATION NUMBER 09/819071 IN SUBSEQUENT RESPONSES

Applicant is strongly reminded to clearly label all document with the instant application number 09/819071, or when a serial number is unknown, to clearly point out that the serial number is unknown and the application is a continuation, cip, etc. of serial no. ###,###.

Applicant is referred to the a copy of the preliminary papers filed concurrent with the original papers paper as resubmitted on 07/29/2003. It is noted on pages 2-8 of the preliminary claim amendments, the paper only identifies serial no. 09/784,337. The paper pages does to point out this paper is directed to a serial number unknown, but a is a "continuation of 09/784,337", but only states "Serial No. 09/784,337".

**Unnecessary delays may occur without the proper and correct identification upon the paper pages.**

#### *Election/Restrictions*

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

The species are as follows:

A. The species of the device depicted in Figure 1, of a double helix reciprocating extruder.

B. The species of the device depicted in Figure 2, a single helix reciprocating extruder with metal detector.

C. The species of the device depicted in figure 3, a single helix extruder with temperature control.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim appears to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim
